

WIPO Director General  
Mr. Daren Tang Heng Shim  
邓鸿森

World Intellectual Property Organization  
34, chemin des Colombettes  
CH-1211 Geneva 20, Switzerland

**Dear Mr. Daren Tang,**

The letter in question is a formal and official request for WIPO's position concerning the financial instrument known as IP CDOs (Intellectual Property Collateralized Debt Obligations).

WIPO's stance on IP CDOs will enable innovative companies worldwide to comprehend the prevailing trends and future outlook for the IP CDOs market, including support mechanisms and regulatory frameworks within this domain.

It will provide insights into the legal landscape and practical applications of IP CDOs within the global economy and international financial system.

WIPO can assist by offering guidance on the protection and monetization of IP assets, facilitating access to capital markets through IP Finance, and promoting best practices in management related to IP CDOs.

**Appendix:** Presentation (11 pages).

**The Solution**

**Discount & Perpetual IP CDOs**

## **WIPO eTISC's Expert Victor Michelle: What Are IP CDOs \ #IPCC**

IP CDOs (Intellectual Property Collateralized Debt Obligations) are innovative blockchain digital assets acknowledging debt & constituting a form of scrip (form of credit or debt receipt).

IP CDO is a financing \ tradable \ collateral \ pledge \ debt & credit instrument developed by the Russian economist Victor Michelle & proposed in order to involve intellectual property assets in international economic turnover.

IP CDOs are types of structured asset-backed IOU (informal document acknowledging debt), where they may not specify repayment terms such as the term & time of repayments.

## **Some of IP CDOs (#IPCC) Types & Characteristics:**

- *By maturity:*

Perpetual (there is no fixed payment period, they give a constant income, they are similar to preferred shares).

- *By type of income:*

Discount or coupon-free. There is no coupon payment, bonds are placed below face value, and income is generated by the difference between the purchase price and the redemption/sale price.

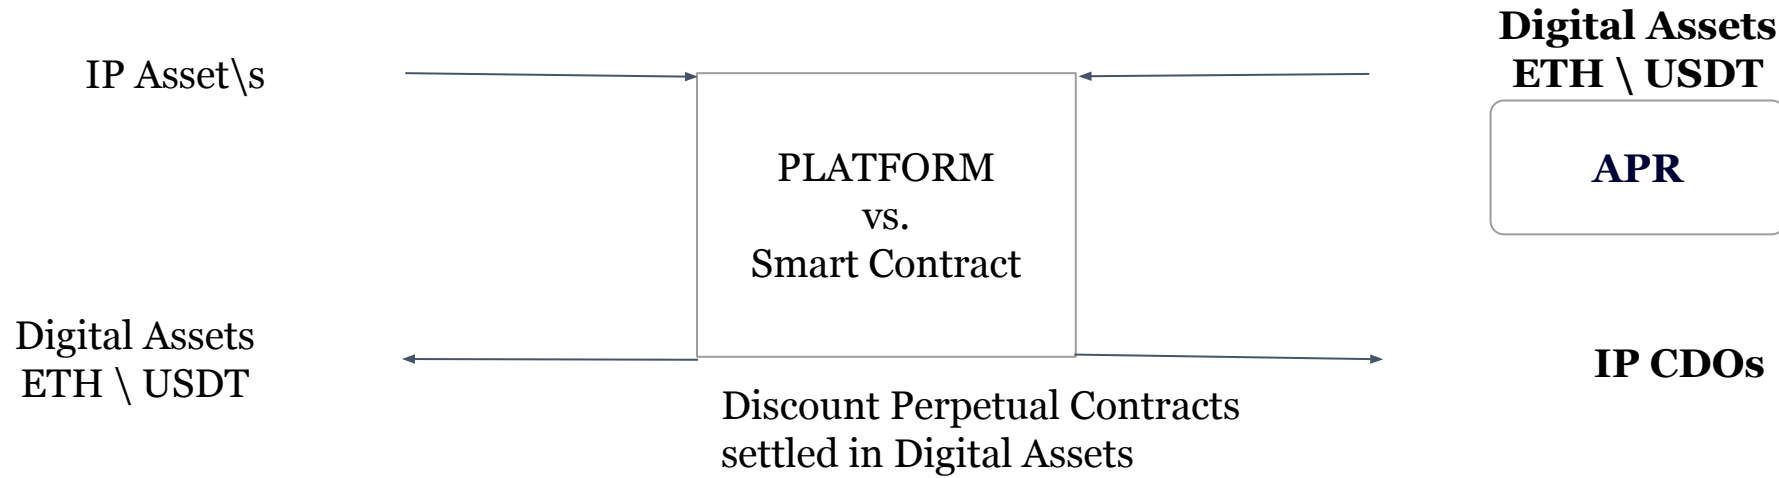

**1-st in the world blockchain platforms of emission & trade of  
Intellectual Property Collateralized Debt Obligations (IP CDOs)**

Intellectual property is a collateral for loans.

IP CDOs \ IPCC (blockchain tokens \ coins backed IP Assets) are the right of monetary claim for a loan.

IP CDOs: CDOs backed IP Assets.
